

---

Select and control part of keyboard sequence Symbol Display Notes: Three types of symbols can be used to define lines on shapes. Contour line symbol is used to draw closed curved lines Symbol line is used to draw straight lines Cross symbol is used to draw lines crossing each other When "My shapes" is selected and you display a symbol from the Draw panel, you are actually using the symbol line type. The lines are displayed automatically, as long as the symbol is active. You can also change the color of the symbols. To do this, select the symbol. In the Edit panel, click on Symbol, then you will be able to select a color. When you are ready to go to the Symbols panel to create or edit your symbols, click the Show/Hide Panels button.
