Fecha de publicación: 28 de enero de 2009 Libro seleccionado por la BBC, 2008 "Spinrad's imaginative fantasy deserves to be more widely read, especially by young adults." International Herald Tribune "I get so excited thinking about the things he would have me write, that there is no chance I will be able to follow him through." From The Age of the Elves, 2000 "As far as setting the English language itself is concerned, there is one writer in particular who has had the most impact on the way I see things - Norman Spinrad." Gerry Dukes Fecha de publicación: 9 de mayo de 2001 The Trestle, 2007 Fecha de publicación: 18 de mayo de 2000 The Half-Life of Longinus, 2000 "Spinrad's most impressive novel is The Trestle, the final tale in his multigenerational saga about the Meiji Restoration in Japan. For the full experience, read it in the original German. It is very difficult to do justice to a novel in another language; Spinrad did the impossible." Dave Eggers Fecha de publicación: 9 de mayo de 2001 The Biopolitics of the Stars, 1998 Fecha de publicación: 11 de mayo de 2001 "This fun, fast-paced, page-turning novel was a Los Angeles Times Book Prize Finalist in 1998, and was among Spinrad's best-sellers. The author is one of the most versatile and prolific of the new wave of SF writers, and it's especially interesting to see him develop a science fiction story. The Biopolitics of the Stars is both clever and diverting, and his recent novels have revived interest in the genre." Michael Bishop Fecha de publicación: 11 de mayo de 2001 The Jaguar House, 1997 "My latest novel, The
