this Surface Pro Clear has been highly rated. I also love the looks of it (and I don't mind spending a little more). I

am wondering if there is any noticeable difference between the Space Gray and Clear iMac? I am willing to spend upwards of \$1,000 for this item so I need to make sure I am getting the best. I just want to get my hands on the Surface Pro. I have a real issue with this whole OEM differentiation and all these different colours of paint on
