

---

This program is a simple macro maker for Microsoft Outlook. You can create very complex macros which can be used very frequently. Macro files can be saved and loaded with the program to perform any required actions on your e-mails. When you create a macro you can set the name, the location where you want it to save, the settings (outlook profile, opening window etc) and the program will do the rest. You can have several macros in one file. If you need to run one macro several times and don't want to save it as a separate file, the macro can be stored in a memory address. Macros can be automatically loaded every time the user opens Outlook, saving a lot of time and hassle. You can create complex macros that can automate your e-mail work for you. It is a good idea to create a backup copy of your macro files, in case you lose them. Macro files are saved in memory, so if you lose the application or the computer crashes, the macros will be lost. Macro files are quite small (only about 1.5 mb) so they do not take much space on your hard drive. You can have several backups of your files, so you can always get your work done again. You can edit the macro, save it, load it back and the macros will do the rest. Macros are saved in the [Outlook\Macro] folder. Macro Documentation: [ Key Features: 1) Create complex macros. 2) Automatically load macros upon opening Outlook. 3) Open macros inside a specific window. 4) Load macros from disk. 5) Scan and repair corrupt.ost files. 6) View contents of.ost files. 7) Send selected items to the trash. 8) Read and write email on remote POP3/IMAP/POP3S servers. 9) Generate reports on the status of the scanned email folders. 10) Save macros in a file that can be loaded later. 11) Save macros in the 'Memory' variable. 12) Load macros from the 'Memory' variable. 13) Compress or delete certain Outlook folders. 14) Import and export filters. Key Benefits: Easy to use, well documented, well tested. You can 70238732e0

DESCRIPTION Compaq will send a special "KEYMACRO" email containing a special code (generated from a product serial number) to the registered owner of a product on the site where the download was registered. Keymacro is not intended for commercial use. A '%PUBLISH%' button on a product page, if present, when pressed, will push a "KEYMACRO" button with the above code, and will result in a download for the product. In addition to a Product serial number you must have a registered email address. Please register for this service at: If you do not have a product serial number you must provide the name of the computer that the product was installed on. This will allow us to check the serial number on that computer against the serial number from the mail. If you do not have the name of that computer, please provide the name of the computer that the product was installed on. By clicking on the '%PUBLISH%' button, the '%KEYMACRO%' button will be pushed. If you do not have a serial number and do not know what computer the product was installed on, please do not click on the '%PUBLISH%' button, and instead, check for any special offers or product discounts from Compaq, and if you know the product serial number, check for the serial number on your product and click on the '%KEYMACRO%' button. This is a special offer for Compaq's products only. Do not click on the '%KEYMACRO%' button for other companies. This is not a time to start buying anything. The '%KEYMACRO%' button will not be pushed, but will work if you know the product serial number. Customers must be 18 years of age or older to use the Keymacro functionality of this product. If you have any questions please contact the "%KEYMACRO%" mailbox, or contact us at Additional Information General Information Website: License: You must agree to the license terms prior to downloading and using the software.
