CALCULATOR is a small software application whose purpose is to help you perform mathematical operations, like addition and subtraction, with ease. You can deploy it on all Windows versions out there. Requires no installation The portability status of the program gives you the freedom to gain access to its GUI without having to go through an installation process. You may simply double-click on the executable file. Plus, you can keep it saved on pen drives or similar devices and run it without possessing administrative privileges. You can also take advantage of the fact that it does not leave entries in your Windows registry and uninstall it with a fast deletion task. Minimalist layout CALCULATOR is developed with simplicity in mind so you won't spend a lot of time tweaking its dedicated parameters. All options are integrated into a single window. There are no other configuration settings hidden under the hood. Support for several math calculations The application offers you the possibility to make use of basic mathematical functions, like addition, subtraction, multiplication, and division. You can input the numbers via your keyboard or the integrated keypad. What's more, you are allowed to copy the results to the clipboard so you can quickly paste them into other third-party programs. Tests have shown that CALCULATOR performs calculations very quickly and without errors. It does not eat up a lot of CPU and memory resources so the overall performance of the computer is not hampered. Final remarks To sum things up, CALCULATOR comes packed with basic features and provides nothing more than limited functionality for helping you carry out math calculations, and is suitable especially for less experienced users. On the downside, there's no support for advanced options, and you cannot keep a history of your calculations and carry out trigonometric operations, just to name a few options. 30.88 MB | 65 downloads | 5 reviews LightView Pro by LightViewPro A software that brings you the power to view any type of photo like a professional photographer.
