[Meta-analysis on diagnostic accuracy of intranasal pharyngeal swab for rapid influenza virus infection detection]. To assess the diagnostic accuracy of intranasal pharyngeal swab for rapid influenza virus infection detection. Medline, Embase, PubMed, The Cochrane Library, Chinese Biomedical Literature Database, Chinese WanFang Data, Chinese National Knowledge Infrastructure, and Chongqing VIP database were searched to collect the diagnostic accuracy studies on intranasal pharyngeal swab for rapid influenza virus detection. The data were analyzed by Meta-Disc 1.4 and STATA 12.0. Six studies with 651 cases were included. The pooled sensitivity and specificity were 94.4% (95% CI: 93.4%-95.3%) and 92.6% (95% CI: 91.2%-93.9%), respectively. The positive likelihood ratio (PLR) and negative likelihood ratio (NLR) were 13.33 (95% CI: 8.59-21.17) and 0.06 (95% CI: 0.01-0.40), respectively. The area under the receiver operating characteristic curve (AUC) was 0.97 (95% CI: 0.96-0.98). The area under the summary receiver operating characteristic curve (AUSROC) was 0.97 (95% CI: 0.96-0.99). The results indicated that intranasal pharyngeal swab was an accurate and convenient diagnostic method for rapid influenza virus infection detection.

Q: How to read string from .py file to second.py? I am trying to read a string from a .py file (called current_one.py) and put it into a variable. I tried using the read() function but I receive this error: UnicodeDecodeError: 'ascii' codec can't decode byte 0xe2 in position 3: ordinal not in range(128) When running this line of code: current_one = open("current_one.py").

Mobile DTV Viewer For DVB Crack + [Win/Mac]

Keymacro is a stand-alone application developed by KOR Team for anyone to register and save key codes. It is a useful tool for any PC gamer or Steam user. Mobile DTV Viewer For DVB [32|64bit]

This is a free viewer for DVB channels. The channels can be viewed over the internet. About: The software is free, and there are no restrictions for its usage, so you can do anything you want with it. Installation instructions: download from here Source code: see readme.txt Credits: Version history: 1.1 - added some options, setting and result buttons 1.2 - added support for EIT and status display 1.3 - minor fixes and addition of sound ----- # # SCSI performance tests # # # This test writes data to a file for a number of different # SCSI performance values and then reads that file back # to make sure we got the data we wrote # # We need this test to run on systems where a separate file # descriptor for reading is not possible. The numbers here # are estimates, and have probably been

What's New in the?

Mobile DTV Viewer for DVB is a sophisticated application that enables you to view your favorite digital TV channels or Mobile DTV programs straight from your computer. This software is specially optimized for receiving streams broadcast by DVB-T2, DVB-T, and DVB-H networks. You can playback up to three different programs, each in a separate window as well as scan for channels. The program requires a dedicated hardware device, with broadcast driver architecture. You can watch digital TV and Mobile DTV at the same time with the help of a DVB-T/-T2 receiver with BDA driver. The application supports DVB-T2 multi-PLP (MPLP) and HEVC playback, but unfortunately, it cannot access encrypted TV programs. You can always open the Electronic Program Guide (EPG) for digital TV programs and the Electronic Service Guide (ESG) for mobile DTV programs. Depending on the region, you can access various types of information. The application is quick to install and requires minimal system resources. You must have administrative privileges to access all of its features and a valid installation of DirectX 9. You can run the software on most modern versions of operating systems. The User Manual provides an ample and detailed set of supported hardware. Moreover, the software has been tested on current devices to ensure compatibility. You can always open the help file to shed light on any difficulties you might have. Mobile DTV Viewer for DVB is a good solution for watching digital and mobile DTV channels. Various features make it stand out, such as the support for DVB-T2, DVB-T and DVB-H, and the simultaneous viewing option. The software requires a specialized hardware component, but other than that, its necessities are minimal. aac, blu-ray, cbr, cl-dd4d, cl-offtbl, code-streams, d2v, dai, dvmcc, dvmna, dvmrt, dvmrr, dvbs, dvbt, dvbt-2, dvbs2, dvbs2-2, dvbs2-db, dvbs2-t2, dvbs2-t2-m0, dvbs2-t2-m1, dvbs2-t2-m2, dvbs2-t2-m3, dvbs2-t2-m4, dvbs2-t2-m5, dvbs2-t2-m6, dvbs2-t2-m7, dvbs2-t2-m8, dvbs2-t
