No, seriously, we've got some heavy-duty building materials to test and work with so you can get some creative, and build something new! While we're in a workshop, you're well within your rights to singe as much housemates as possible – but please be safe and mind the fire regulations. 1. Cement mix You need cement mix to start building, so step up and get your hands on some of the new shape cutting, colour mixing and liquid add to any creative project. 2. Milling machine This doesn't have to be something big and dramatic – you just need to get your hands on some way to cut shapes out of cement. So, if you've got a cement mixer, you can use it to make the cement mix for your model. The biggest problem with cement mix is that it starts to harden very quickly, so if you've got access to a power tool, this is the best time to get it into action! 3. Paver mix These are the perfect stuff for making a smooth, even surface. Plus you can use them to make an endless variety of shapes, including some really cool sculpts that would look great in your garden! 4. Shapes There are endless ways to start building a model from scratch, and these are some great

## System Requirements For MusicPlus:

Reviews: "I'm a pretty big Star Wars fan, especially given that I was into my pre-teen years. From The Black Series to Rebels and now Rogue One, I can't think of a more enjoyable time in Star Wars history. When I heard that a new novel set in that period was coming out, I was more than a little excited. I'm glad to say that I was not disappointed. This book definitely works on its own, but it also does a great job setting up and expanding on previous stories. It tells its own tale, but still
