The developers, by MacPaw, has released a mac version, but the Mac version, unfortunately, has a bug. When I start the app, nothing happens. You can try to edit things, but nothing happens, and I have to cancel the application. I called them, and they recommended that I call Apple, and now I'm having problems with my Apple ID. I can't access the Mac version of the app, I only have an iOS version, and I can't
