iPhonePicker is the ultimate iPhone photo manager. It automatically learns your iPhone photo library and lists any existing photos, videos, location or custom tag information for the photos in your library. With iPhonePicker's new Photo Downloader application, you can select a photo or several photos from your iPhone and simply email them to yourself or any other Email clients. iPhonePicker works directly on your iPhone - there are no jailbreaking or software upgrades needed. It includes an iPhoneX button, which works on both iPhone XS and iPhone XS Max to select the iPhoneX images. Photo Downloader (iPhonePicker) allows you to:

- Create custom views of your iPhone photos
- Delete your selected photos
- Scan your entire library for selection
