MaxTRAQ Standard Crack +

MaxTRAQ Standard is a simple and easy-to-use software that helps to digitize points and angles using standard AVI video files. "MaxTRAQ Standard" is a software that allows digitizing points and angles from standard AVI files. When a user opens the software, a file window will appear, showing the source video file. To begin, the user selects the digitizing points, and once done, the computer will automatically track the path of the selected points and create a new AVI file. The newly created AVI file will contain the digitized points and angles. All files generated by "MaxTRAQ Standard" are saved in a special directory, which is a self-contained folder on the user's computer. The user can view all the files generated by "MaxTRAQ Standard" via the "MaxTRAQ Standard" folder. All files can be exported to various file formats such as ASCII, MP4, JPG and TIFF. As with most software, "MaxTRAQ Standard" is designed for specific computer systems. Therefore, the following is a list of requirements for this software: ? CPU: Pentium 200 MHz or faster. ?
