What's New In?

Square Wood Clock is a small and useful Rainmeter theme. This handy skin acts as an analog clock that can display the local time and date. Square Wood Clock offers a customizable time display. This Rainmeter skin shows the local time in 24-hour format. You can display the time in 12-hour format, 24-hour format, date and day of the week (this is only possible in Windows 8). This skin has many customization options, including the ability to choose your own time format. You can set the speed of the clock in seconds. To set the speed, you need to click on the clock to open the clock settings. There are many options, including the option to choose a different time format (Hour, Minute or Second), display the time in AM or PM, choose an animation for the display of the clock, choose a different font and color for the clock, and even choose your own background. This Rainmeter theme offers many other customization options. You can make the skin even more useful by changing the clock to show the time in UTC, or by changing the color and background image. You can choose your own clock face image. Square Wood Clock can show the time in 24-hour format, 12-hour format, date and day of the week, or simply show the time in 24-hour format. The clock is equipped with different settings. For further customization, you can choose a background image, or a random background image. When you are finished, click on the clock to save the settings. Square Wood Clock offers many other customization options. How to use the settings How to set the time format By default, the clock shows the local time in 24-hour format. You can click on the clock to open the settings, and change the time format. How to choose a different time format In the settings of the skin, click on the Clock settings button. The settings will open. You can choose the time format. How to choose an AM/PM display To choose AM or PM, select the AM/PM display option. How to choose a date display To choose the date, select the Date display option. The skin will display the date in the time display. How to choose the day of the week display To choose the day of the week, click on the day of the week display option. How to choose a different font You can use any font. Simply choose a different font, and click on OK. How to choose a different color In the Clock settings, you can choose the color. You can choose any color. How to choose a background image In the Clock settings, click on the background image option. How to choose a random background image In the Clock settings, click on the Random
