
DreamBox-OptiFlasher-Pro-E2-v2.0.0c.exebfdcm [NEW]

A: I had the same problem, but I was not able to get rid of it. I ended up solving it by uninstalling the program, clearing all the data from the drive, and then reinstalling. This fixed the problem.

Q: Tasker & Do Not Disturb without Google Account (Like a Non-Visible account) I'm running CyanogenMod 7 on a Nexus S. The Cyanogen Mod app lets me go into 'CyanogenMod Advanced Settings' and set a 'Custom option' for 'Do Not Disturb'. The list of options includes two user accounts: one visible and the other non-visible. This 'non-visible' account has 'OFF' (as seen by the app) for the Do Not Disturb setting. Is there a way to set this same setting via Tasker, or otherwise?

A: This is possible using Tasker, but instead of using CyanogenMod Advanced

Settings to set the "Do Not Disturb" option, it would be better to use Tasker in a different way, to invoke "Do Not Disturb" mode on a recurring basis and only when a certain condition is true. For example, using the "On Entry" event, you can set the task to trigger do not disturb mode if the battery is at

Just in case someone is wondering, I cannot include the entire text here because the whole post is only 356 characters long. This is my first post in about 2 years here on SO, so I'm not sure if the posting rules are different or something. In any case, thanks SO for letting me post this! Q:

Converting Date from 24 hour format to 12 hour format with missing 12:00 AM/PM values

Can you help me here? I have an array of Date objects var dateArray = [{date: '18/3/2015',color: 'blue',invalid: false},{date: '18/4/2015',color: 'blue',invalid: true},{date: '18/3/2015',color: 'blue',invalid: true}]; console.log(dateArray.join(' ')); I want to convert the date to 12 hour format with missing 12:00 AM/PM values The output should be 18/03/2015,18/04/2015,18/3/2015 A: Here's a neat way with moment, this will work fine with your data: var dateArray = [{date: '18/3/2015',color: 'blue',invalid: false},{date: '18/4/2015',color: 'blue',invalid: true},{date: '18/3/2015',color: 'blue',invalid: true}]; var newArray = []; var dateObj = {}; for(var i = 0; i < dateArray.length; i++) { var date = moment(dateArray[i].date).format('MM/DD/YYYY'); var color = dateArray[i].color; var invalid = dateArray[i].invalid; newArray.push({date: date,color: color,invalid: invalid}); } console.log(newArray); Q: Failed to optimize the query with duration > 1 second I have a large set of data(more than 500,000 rows) stored in the table. I make the query like this, select * from myTable where col1 = 'valueA' and timestamp between '2018-05-05 00:00:00.000 3e33713323
