KEYMACRO is a program developed for the administration of various cognitive tests and quizzes. It allows for the printing out of scores, items and/or result tables and the calculation of grades. It also comes with its own icon, as well as the ability to draw on an image using the pen tool. It is simple to use, and its basic functions are clear and easy to find. The result tables can be viewed and saved in the same way as the image drawing. Keywords: KEYMACRO Help us to detect missing keywords/phrases Please give keywords which are not highlighted.
