TR Assistant

Para TR Assistant L'assistant de traduction TR Assistant an easy way to translate any words or expressions. TR Assistant Description: Para L'assistant de traduction Para TR Assistant TR Assistant, L'assistant de traduction TR Assistant, CTR Edition, L'assistant de traduction Grapheme Peris, CTR Edition, Le chercheur d'assistants de traductions, L'assistant de traduction Grapheme Peris, C'est ici... TR Assistant Description: L'assistant de traduction est un dictionnaire de plein temps, format en graphique et en version mobile. This is a full time word by word dictionary with unlimited and free access. You can use this dictionary to translate any word when you are making a presentation, doing a report, writing an email, answering a question, etc. Thanks to its easy to use application, you can use this dictionary without having to look up a dictionary because all words are in the form of a table. This dictionary contains more than 380,000 words, and is constantly updated. The dictionary supports full text searching in all its forms: abstract, titles, headlines, graphs, pictures and charts. All the words can be copied and pasted from the dictionary. The dictionary can be used as a multi-lingual dictionary for bilingual and monolingual users. You can use this dictionary to translate from any word to any other word or to your native language. This dictionary is very easy to use: 1- Open any text in the form of a table. 2- Choose the form in which the text is written. 3- Paste a phrase and start to translate it. 4- A list of the possible translations will be shown. 5- The translations are listed from left to right in English for easy understanding. 6- Select the translation you want to use and click "Translate". 7- The translation will appear in the same text format used. 8- Click on any word to be translated and show in its original form the translation. 9- The translation and its original form will appear. 10- The original form will still be displayed even if the translation is selected. 11- You can copy and paste any text from this dictionary. 12- You can also add notes about the translations. You can have access to the dictionary through
