Page without the same content, A page with the same content as this page, Bookmark Social bookmarking Stumble Reuse of content on this website Copying and rebranding of content on this website Plagiarism You can quote part of the content in the quote button and use the list of the most popular quotes for your own purposes. When using a quotation mark (") it is necessary to include the author's name, the title of the work (in italics), and the page number (in brackets) when applicable. For example: Jane Doe, " The Traveling Saleswoman" (from page 123). Adapt the text to your own purposes (not more than 500 words). You can use this quote for your own purposes and you may quote up to 500 words. You can use a short image, for example a Web site logo, to link directly to the source page. You can also link directly to any page on the website. You can use the following tag : If you use quote, please specify which one you are using (see above).Q: JVM and/or JIT is failing to compile methods in an executable jar that I need to use I am aware that this is a duplicate of this question, though it did not solve my problem. I am using Oracle Java 8u20 and Windows 10 as well as spring-boot 2.2.0. I have a SpringBoot main class in a.jar and I have a.class file in the same.jar with the main class. The problem is when I run the Java file from IntelliJ, it gets compiled into the.class file and when I try to run it like so, I get the following message: Error opening zip file or JAR manifest missing! (java.util.zip.ZipException) So I can use: java -jar MyJAR.jar to compile and run it as expected. However, when I try to run the.jar from any other way, I get the error: Error opening zip file or JAR manifest missing! (java.util.zip.ZipException) I have tried the following solutions: 3da54e8ca3
