The goal of this project is to create a software that will be used for website services and is available for free for all users. The software will provide basic functionalities like registration, login, profile etc. without requiring any database or any form to submit. This project includes 10 features and lots of sample data. Features: - Registration and Login - Customer Profile - Billing Invoice & Support Profile - Warranty - Customer Support - Safety Alarms - Car Door Open - Restaurant Timer - Battery - Air Conditioner - Lighting - Recorded Video - Pet Sounds - Digital Music - Calculation - Visual Preferences - Grid Base I am a Software Engineer and I do not have time to develop this application, therefore I need someone to do the programming for it. This is a one time job and I do not have time to create more. I will do the programming myself. However, I will need at least a week to do it and I only have this spare time. I also need to know a lot of programming and software development. As a web developer I wanted to add content to my existing website. I saw there is no new content and the old one is becoming obsolete. There is a particular category in the existing website which I want to add content to. So I need content for this category. Looking for short-term work to just add content. ASP.NET Core 1.1 with AngularJS, so we can use existing web application on Azure Web App. JQuery: you will edit some of the existing JQuery code to use AngularJ. Modify all the existing JavaScript to use AngularJ Frontend/Site design In my previous project, I used oledb for connecting sql server. But it is time consuming to develop a

System Requirements:

SinglePlayer must be enabled in your Computer Minimum requirements to play: OS: Windows XP, Vista, 7 Processor: AMD or Intel Core i3 Memory: 1 GB RAM Graphics: DirectX 9 compatible video card with Pixel Shader 2.0 and Shader Model 3.0 or later DirectX 9 is required for full performance. DirectX 11 is required for HD resolutions. Recommended Requirements: OS: Windows 7, 8 Processor: AMD or Intel Core i5 Memory: 1
