Fifa 22 Features Key:

- The return of the most authentic tackling ever seen in a FIFA game. A new, true-to-life and highly reactive AI sees players make accurate attempts at the ball when they are not necessarily in control of possession.
- Dynamic interaction: Kick the ball through a defender's legs, challenge a massive man with an aerial duel, run around him and the star midfielder on the floor. With the new "Dynamic Interaction" feature, the player's reaction to the action, as well as their ratings, will change based on all of these factors. Attackers must be more patient, and defenders more alert.
- The return of the attacking system, with smart, integrated AI. Use the full attacking power of over 500 players, with unstoppable speed, close control, sudden bursts, dribbling, and the ability to take on all defenders and dribble past them.
- Authentic player movement and ball control: Move the ball calmly and confidently through midfield. Touch, pass and dribble your way through pressure from defenders, using power shots for real goal threats, from overhead and low shots to precision long passes when the time is right.
- Bring authentic player skill to the pitch. Use whole-body movements unique to each player in the engine. Full, non-copied, player animation on every player on the field.
- Styling plays a key role in the game. Choose your kits, stadium and squad in any order. Add boots for each position, texture variations, and even individual crest graphics. Immerse yourself even further in your team and your game!
- Return of a player agency system. Create your team like never before. You have all the tools you need to make player decisions, make line-up selections and manage a squad. Tactical battles, fast tempo games and longer fueds all take place around five different traits: Style, Strength, Technique, Technique and Teamwork.

-
- Individual skill and realistic dummies. Go the extra mile with over 1,000 dives and over-the-top celebrations to entertain you and your crowd.
 - A new fluid ball physics engine that takes all kinds of movements into account. Touch, pass and dribble the ball to score, beat defenders one-on-one with tricks, shoot at all angles, and more.
