

GET THE BEST ORACLE FUSION  
APPLICATIONS TRAINING FROM  
INDUSTRY EXPERTS

Supply Chain Management of Fusion Applications is taught from grass root . No prerequisite is assumed from participants, even though a knowledge of E Business Suite will come handy in quickly assimilating the concepts and comparing the evolution.

In addition, customers can choose either one or more of these modules as per individual business demands.

**Fusion Inventory Management.**

Fusion Procurement comprising of six pillars...  
namely Procurement , Self Service procurement ,  
Supplier Portal, Sourcing, Procurement  
Contracts and Supplier Qualification  
Fusion Order Management

## ONLINE ORACLE FUSION APPLICATIONS TRAINING FROM INDUSTRY EXPERTS (ANANTHA NANA)-

### Drawback with others

Many trainers will not have an  
Implementation experience

You will not get the contact details of the  
Trainer.

You have to correspond only with the  
Institutes

After Sales Support is poor.

The coverage will be at a high level. You  
only have to dig deep and explore the  
Application.

## WHEREAS WITH ANANTHA NANA

He will mentor you...if you are struck during Practice.

He will introduce you to my other students in a group...so that you can interact for knowledge sharing / problem resolution.

Approach him at any time. I / we will look at your issue at a convenient time in Zoom conferencing. I provide instance for practice...shared by my students.

Check my quality at **youtube.com** and search for **Anantha Nana**. Many promotional videos are uploaded.

His comprehensive coverage of supply Chain of E Biz and Fusion and hands-on demo of all the setups, configurations and transactional flows will give you an in-depth functional knowledge.

No pre-requisite is required for the participants. However, a knowledge of E Biz will come handy, as at many places, E Biz is compared with Fusion, while explaining the Business Processes in Fusion.

More than **150 GB** of Docs and Records are shared. They will provide a strong footing when you launch your career.

He is regarded as one of the top trainers in India on Oracle Fusion SCM. I have conducted my training at various Multinational companies like CTS, TCS, Infosys, Wipro, Accenture, Cap Gemini to name a few.

He has also performed implementation on the subject in many parts of the world.

He serves Oracle University through a Contractor.

Undoubtedly, a professional trainer who has 16 years of experience in the Oracle domain will teach you better. They have a uniquely engaging style with everyone and they always motivate everyone. They can better deliver training programs to a range of audiences online from a beginner level to a strategic level.

**ANANTHA NANA** is an industry expert trainer and he is committed to their work and completes the training program within a deadline, which covers all modules of training (theoretical and practical concepts).

ANANTHA NANA will share important information with students during the training program. You can approach him at any time and he will look at your issue at a convenient time in Zoom conferencing. Even if you are stuck in any problems, then he will mentor you.

He will provide an instance for practice. You can have a chance to interact with other students in a group for knowledge sharing/problem resolution. Also, more than 150 GB of Docs and Records are shared which can help you on a strong footing when you launch your career.

You can check his quality at [youtube.com](https://www.youtube.com) and search for Anantha Nana. Many promotional videos are uploaded. He is one of the top trainers in India on Oracle SCM.
