the free version that is. It also comes with a radio with local news, weather forecasts, financial information, stocks, sports and many others. You can create list that you will use to find the information on your choice. You can even choose your preferred entertainment stations and even other signals to get them to your device if you prefer. Amazon.com: Autodata V3.18 (Windows): Digital Music, D: M: An Electronic Engineering Made Easy Software (product details)WILKES-BARRE, Pa. — The New York Times' Jill Abramson makes an extraordinary claim in her now-infamous 9 April New York Times column about how the newspaper magnate, Rupert Murdoch, runs his company. No, it's not that he's a "tiger dad" (despite the headline), or that he's a bloviator, "the bluntest man in publishing" (No, that would be his son James). Her claim is that his quest for "stability" has resulted in a "family utopia" in which the Murdoch family "has no enemies, no controversies, and no challenges." In fact, contrary to Abramson's depiction, the family has faced numerous challenges over the years, including several libel suits, the phone hacking scandal and at least one serious legal challenge to the elder Murdoch's power. But if Abramson is not reading the newspapers she's attacking, she should start. An exhaustive study of the Murdoch family by the Los Angeles Times in 2004 uncovered the extent of the turmoil, from court cases to newspaper stories to revolts over media ownership. The report also revealed that the Murdochs' newspapers were facing stiff competition from imitators; that legal conflicts had erupted with Murdoch's pay-TV outlets; that the Murdochs' global empire was disintegrating; that Murdoch's latest marriages had failed; and that the children's marriages were struggling. Abramson's statements about the family are wrong and represent a troubling distortion of history. This columnist is part of a long tradition of journalists misusing their power and influence to campaign in support of values they share with their employers. They are especially likely to do this when they are not being paid to work on the newspapers they write for and when their employers are unhappy with their coverage. Abram
