I am facing this issue since long in ArcGIS 10.2. All the layers that I need to work with are so much slow. Is there any way to increase the speed of a whole application?? Is there any single place where we can install ArcGIS 10.2 completely and not crack it? I checked internet and tried to crack, but I had some errors that I just don't know how to solve. I don't know why the data that I import from ArcGIS to SQL Server has some rows only with a question mark. Is it because of ArcGIS and SQL server connectivity issues.
