Inkjet is a really great Desktop Publishing tool, but the text and vector printing in this program is unnecessarily limited (especially compared to what you can achieve with Microsoft's PowerPoint). If you don't need to hand-draw your text and don't need the professional look that the text and vector printing in PowerPoint gives you, then you definitely want to give Inkjet a try. What's New - Many more feature improvements and fixes. Screenshots What's New in version 10.1.0.32 - NEW: Inkjet now works on Mac OS X Lion! • Inkjet is a really great desktop publishing tool.
