Khalil Rodan Khalil Rodan (also called Khalil or Kalil; c. 1815 – February 9, 1889), was a Taqayya and supporter of the Assyrian Neo-Aramaic dialect in Ottoman Palestine. Biography Khalil Rodan came from a well-known family of Kurdish-Assyrian immigrants to Syria and Egypt who migrated to Jerusalem in the 18th century. He is the son of Abd-Elasadat, a Kurdish-Assyrian immigrant to Syria and Egypt, and Zuleika, a descendant of the major Kurdish-Assyrian family. While it is not certain when he was born, he was most likely born in 1815. The family was well-known among the local population because of their service to the Ottoman Empire, and they were in demand in public service positions. Not only were the males of the family highly respected as judges and prosecutors, they were also tax collectors. One of their influential descendants was Ali Rıza Bey, the governor of Jerusalem. Khalil Rodan's uncle, Sheikh Kabir, was the great Syrian-Assyrian poet of the 19th century. Khalil Rodan was also well-respected in the Arab world. One of his biographers was the Arab travel writer Said El Shafei, who would later become a bishop in Jerusalem. Another was Abdul Rahim Kayyali, who was a Sufi poet and scholar of Syriac literature. Khalil Rodan was a supporter of the Assyrian Neo-Aramaic dialect, and he was highly influential in the introduction of vernacular Syriac (also known as Levantine Aramaic) in the Ottoman Empire. Several books and sources of works that would have been inaccessible to Christians in the Levant were first published in this dialect in the Ottoman Empire. Khalil Rodan's importance in the development of the vernacular Assyrian dialects within the Ottoman Empire had much to do with his ability to compose, transcribe and edit in Arabic, Assyrian Neo-Aramaic and other languages. His work had an important influence on the growth of the Assyrian Neo-Aramaic dialect and helped bring about the introduction of the Christian population of the Levant into the vernacular Assyrian dialect. Khalil Rodan was well-known for his oratory skills and his mastery of the Arabic language. This allowed him to communicate with people of different backgrounds
