SysTools Lotus Notes Emails to Exchange Archive is an application meant to provide users with the possibility to easily convert their Lotus Notes emails or Domino mailboxes to Exchange Archive. Two conversion modes The program comes with two conversion models integrated right from the start, so that users could convert either Lotus Notes emails or Domino Server mailboxes to Exchange archive. With the help of this tool, users can either convert multiple NSF files to Exchange Archive, or can convert multiple mailboxes in the Domino Server, all with only a few mouse clicks, while also maintaining the account meta-data intact. Select what data to be converted The application provides users with the possibility to select the email data that they want to be converted to Exchange Archive, courtesy of an integrated filtering option. Thus, users convert emails received on a specific date, or those from a given date range. The application comes with support for exporting selected email folders, provided that the NSF file or the Domino mailbox has multiple folders. Users can either convert all these folders or only those they need. Create conversion reports The application has been designed with live reporting capabilities, so that users can keep an eye on how the operation advances. In fact, the the live report is being generated as soon as the conversion starts, and is being constantly updated until it ends. The tool offers info on the status of the mailbox name authentication, as well as details on the number of emails that have been converted, and on the speed of the conversion. A resource demanding tool During our testing, we noticed that the application tends to load the computer's processor when performing various operations, and that it does the same when idle. All in all, SysTools Lotus Notes Emails to Exchange Archive is an easy-to-use, intuitive tool for converting Lotus Notes emails or Domino Server mailboxes to Exchange Archive. Although it tends to load the computer's processor even when idle, it does not require advanced computer skills to be used.
