keyboard driver free download.The present invention
relates to a data recording and reproducing apparatus in
which the main recording and reproducing head is
forced to scan a plurality of tracks in the process of
reading or writing data to a recording medium. In recent
years, the data recording and reproducing apparatus
has been digitalized, and various apparatuses of the
type in which the data is recorded on a recording
medium and is reproduced after it has been recorded,
have been developed. In the conventional data

recording and reproducing apparatus, the data are recorded on one track only. Therefore, the data recording time d0c515b9f4
