Flash Viewer Engine is an inexpensive solution for playback of flash movies. It allows to add extra features to Adobe Flash Player, such as playback from any sources, playback of transparent Flash content (ActionScript 3 and more) and grab real 32-RGBA frames. Flash Viewer Engine works on both, Windows and Linux. You can compile Flash Viewer Engine as a Delphi, C++ Builder and Lazarus unit for direct use or it can be used in a resource script. You can even embed it into your application for direct playback of Flash movies in your application. Flash Viewer Engine is fully supported with free updates for one year from product release. Flash Viewer Engine is open source software and consists of 3 main parts: Flash Viewer Engine class library, Flash Viewer Engine Resource script and Flash Viewer Engine Sample Application. Flash Viewer Engine is a great tool for developers and software developers: you can use it to display rich user interfaces and displays rich Flash content. Also you can use it for some specific real-time applications that consume Flash movies for playback, like playing tiles in a board game that display the number of a player who used a tile.

Flash Viewer Engine Sample Application: Source code: Flash Viewer Engine Sample Application (3 files, 60KB) Flash Viewer Engine Class Library Flash Viewer Engine Class Library is a class library that implements main functionalities of Flash Viewer Engine. It consists of: Flash Viewer Engine, Flash Player VCL and Flash Player OCX components. Flash Viewer Engine Flash Viewer Engine is a standalone player. Flash Player VCL Flash Player VCL is a standard component and comes with every Flash player (ActiveX or Netscape plugin). Flash Player OCX Flash Player OCX is a component for using Flash Player with other VCL components. Flash Viewer Engine Resource Script Flash Viewer Engine Resource Script is a script resource that specifies paths to Flash Viewer Engine components. It consists of 3 parts: Flash Viewer Engine Resource script, Flash Viewer Engine Sample Application and Resource file that embeds all of the 3 parts. Flash Viewer Engine Resource Script Description: Flash Viewer Engine Resource Script provides standard link to Flash Player components that are needed for Flash Viewer Engine working. Flash Viewer Engine Resource script consists of 3 parts: Flash Viewer Engine Resource script, Flash Viewer Engine Sample Application and Flash Viewer Engine Resource File. Flash Viewer Engine Resource Script Description:
