During a subsequent meeting on Oct. 22, Nesbitt said the VLCPD informed her that Raimondo suggested they create a surveillance program. "It was his idea," Nesbitt said. "He said, 'Let's figure out a way to finance the operation.'" Photo by John P. Savarese/Portland Press Herald / PNG Raimondo's attorneys, however, have suggested that when the VLCPD began its investigation, it was motivated by the fact that so many officers were arrested at the same time for having sex with minors. But two weeks later, Raimondo's attorney, Bruce Coons, wrote a letter to the VLCPD that described the episode and urged the department to resolve it by "resigning or discharging" Raimondo immediately. In the letter, Coons wrote that the VLCPD's actions "concern the public's perception of police professionalism." "The fact that we have been asked to defend against a law enforcement matter of great import — whether criminal or civil — is an additional aggravation," Coons wrote. "As you are aware, the appearance of a police officer violating the law or any principle of police conduct can have a deleterious effect on the reputation of the Portland Police Bureau and the CPD, not to mention our own client."Singapore's top veterinary doctor awaits possible execution Share this article: Share Tweet Share Share Share Email Share SINGAPORE — Dr Zulfikar Ariff Ahmad, a Malaysian former consultant oncologist at a leading Singapore hospital, faces execution for allegedly murdering 11 patients in Singapore between 1993 and 2000. Of 11 murder cases in Singapore involving euthanasia, between 2000 and 2006 the highest number of patients killed were six — while seven individuals were killed between 2006 and 2012. Between 2013 and 2015, seven people were put to death by the State

My data is read from an API and looks like this: { "id": "1", "name": "SAEN-ST", "description": "Suzuki SVT ST", "colour": "Black", "fuel": "Petrol", "wheelType": "18" } After I get the data I call a function to populate the form with the names of the different cars. Here is the logic I'm using: export class CarComponent implements OnInit { constructor(private _componentFactory:ComponentFactoryResolver, private _component:Component) { } cars: Car[]; ngOnInit() { this.cars = [{ id: '1', name: 'SHERINGN', description: 'This is a description about the car', colour: 'Black', fuel: 'Petrol', wheelType: '18' }, { id: '2', name: 'LANCIA',

Remembrance Day is on the 11th day of November every year (sometimes). However, it's unclear to me what "remembrance" is here, as Google gives no hits. Is this just a typo, or is there more to it? I'm guessing that either "Remembrance day" is a term for the day itself, or that "remembrance" is something like a commemoration of the day. A: The Remembrance Day is a day of wreath laying and the commemoration of the men and women of the armed forces who died in the line of duty. It is also a day of remembrance of how far we have come and of where we must strive to go from here. The Remembrance Day is the day that the nations commemorate the service, sacrifice and achievements of their armed forces. It is about recognising the importance of what our forces have done for us (and what we owe them) and acknowledging that we owe them a great deal. It is a day that we focus on all of the war's terrible things rather than the good things that soldiers have done. It is a day of remembrance of our wars, rather than them. It is a day of remembrance of our war dead and their sacrifice. It is also a day of acknowledging that war is still the cause of death in the world. It is a day for remembering. It is also a day for for the people that have
