Odoo Implementation

Process

Implementing Odoo involves the following steps:

1. Requirement Analysis

Identify business needs and goals, whether it's ERP Accounting or Manufacturing Software.

2. Module Selection

Choose the relevant Odoo apps, such as CRM in the Real Estate Industry or Construction ERP.

3. Customization

Configure and tailor the system, including Integration with WMS Warehouse Systems or POS **Linkly** / EFTPOS Payment Connection.

4. Customization

Configure and tailor the system, including Integration with WMS Warehouse Systems or Vantagepoint.

5. Training

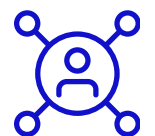

Educate employees on using the system, including Odoo Login procedures.

6. Go-Live

Launch and monitor the system.
