In Perth, two popular trends are making homes more comfortable and stylish: **block out curtains** and **featured wall designs**. These simple yet impactful additions can dramatically improve the look, feel, and functionality of any room.

In this blog, we explore how [block out curtains Perth](#) and **feature wall design in Perth** can enhance your space and why they're an excellent choice for modern homes.

### **Block Out Curtains Perth – Comfort, Privacy & Style**

#### **What Are Block Out Curtains?**

**Block out curtains** are window coverings made from thick, specially coated fabrics designed to completely block out sunlight and external light. They are ideal for bedrooms, media rooms, nurseries, and any space where privacy and light control are important.

In Perth, where the sun can be quite harsh, block out curtains help regulate indoor temperatures and create a more comfortable environment year-round.

#### **Benefits of Block Out Curtains**

##### **1. Complete Light Control**

Block out curtains are perfect for darkening a room during the day. Whether you're sleeping during daylight hours, watching a movie, or preventing early morning glare, they give you full control over lighting.

##### **2. Privacy Protection**

These curtains offer a high level of privacy, especially at night. They prevent anyone from seeing inside your home, making them perfect for bedrooms and street-facing windows.

##### **3. Thermal Insulation**

Perth's climate includes hot summers and cool winters. Block out curtains act as insulation by keeping out the heat in summer and retaining warmth in winter, helping to reduce energy bills.

##### **4. Noise Reduction**

Thanks to their heavy and dense fabric, block out curtains can help reduce outside noise, creating a more peaceful home environment.

## 5. Stylish Options

Available in a wide range of colours, textures, and styles, block out curtains can be tailored to match your home décor. From modern minimalism to classic elegance, there's a design for every taste.

### Choosing the Right Block Out Curtains in Perth

When shopping for block out curtains, consider the following:

- **Fabric quality:** Look for triple-weave or foam-backed fabrics.
- **Custom fit:** Made-to-measure curtains provide the best coverage and style.
- **Layering:** Combine with sheer curtains for daytime light control.
- **Hardware:** Choose curtain rods or tracks that match your home's style.

Local Perth providers often offer in-home consultations to measure and recommend the best solutions for your windows.

### What Is a Featured Wall?

A **featured wall** (also called an accent wall) is a single wall in a room designed to stand out from the others. It draws attention and adds visual interest without overwhelming the space.
