Novelty Documents in the USA vs. the UK

There is often confusion between **novelty documents in the USA** and those available in the UK. While the purpose remains the same, the designs differ due to variations in official documents from each country.

- **Novelty Documents USA:** Popular items include driver’s licenses, state ID replicas, and novelty passports. They are crafted to resemble American formats but remain non-functional.
- **Novelty Documents UK:** Common requests include novelty student IDs, fake degrees, or driver’s license lookalikes. The designs are based on British layouts but again, strictly for entertainment.
