Eco-Friendly Festive Choice

More people in India today are choosing sustainable options for decoration. The **artificial Christmas tree 3 feet** model from Salvus APP SOLUTIONS supports that eco-friendly choice.

Whether you prefer a traditional red-and-gold color palette or a modern silver-and-blue combination, this tree provides the perfect base for your creative vision.

Some popular decoration ideas include:

- **Traditional Christmas Style:** Red, green, and golden ornaments with LED string lights.

Safety and Durability Guaranteed

Christmas decorations are often placed around children and pets, so safety is crucial. This tree is built using **flame-resistant, non-toxic materials** that ensure safe indoor use. The wide base keeps it stable, preventing it from toppling over when decorated heavily.

Its branches are flexible yet strong, capable of holding ornaments and string lights securely. The smooth edges and soft-touch PVC prevent any accidental injuries while decorating, making it ideal for family use.
